

## TEXTURED TWILL

### GCLT.TW

High quality monomeric PVC twill textured laminating film. The pressure sensitive adhesive is clear solvent base acrylic, pH-neutral, giving the enhanced benefit of avoiding discoloration of the print or inkjet media. Suitable for short to medium term indoor and outdoor applications. Twill textured gives an impressive finish to the print.

#### FEATURES

Monomeric PVC-film, outdoor durability up to 1 years  
One-side coated adhesive, clear solvent base acrylic, pH-neutral, age resistant  
The adhesive provides excellent adhesion to printed media  
Single side siliconized release paper  
Printed materials are guarded from UV radiation, humidity and abrasion  
Unique twill textured is suitable for studio photography, cover of photo album, fine print.

#### PHYSICAL PROPERTIES

Carrier	Soft-PVC-film, 80µm, monomeric
Total Thickness	100 µm
Surface	Twill textured
Adhesive	Solvent base acrylic, permanent
Liner	Single side siliconized paper, white, 105 g/m <sup>2</sup>
Peel adhesion	N/A

#### ENVIRONMENTAL CONDITIONS

Operating	8°-40°C
Storage	18°-22°C (50-60% rH non condensing)

#### AVAILABLE SIZES

130 cm x 30 m

#### ADDITIONAL INFORMATION

The estimated durability is based on accelerated ageing tests and refers to a vertical exposure under middle European climates. The durability of the product depends on the substrate's preparation, the atmospheric conditions and the environmental influence. Exposure to extreme condition (tropical climate, desert climate, high humidity, high UV-light exposure or polluted areas) may cause rapid deterioration.

Please include always the batch number to questions about the product or complaints.
